

I can't even depend on you picking up the kids when we already talked about this for the half day and yesterday you tried to do this as well due to another obligation you had if you want visitation with your kids your going to have to pick them up by 6pm on your fridays and drop off by 6pm on Sunday's and if you don't want them with Louie on Tuesday and Thursday's you can pick them up after school and then then bring them home before I get off work because they have school you have no problem leaving them at 8pm on Tuesday's and Thursday's before I get off work with Louie to avoid me.. if that's to much driving for you you may want to rethink your days or where you reside..... if this is a problem for you and you don't return my kids to their home then you will not be taking them until you have a court order for visitation that outlines the agreement. If you think for a min Im going to play that Lisa and Danny game you got the wrong girl. This will stop now!

Legally right now I don't need you to watch the kids on Tuesday's on Thursday's see attached.....

The legal age to babysit could be lowered in Illinois if proposed legislation passed in Springfield.

Republican State Representative Joe Sosnowski, of Rockford, has filed new legislation to allow working families with a child over age 12 to babysit younger children by lowering the minimum age at which a child can be home without supervision from 14 down to 12.

Tinley Park. As far as Easter goes you can have them half the day I will let my kids at least by 5 o'clock on Easter or you can have them at 5 o'clock and I'll get them during the day. you're absolutely correct when I am out of my lease at that address at 958 on the 15 of April. I will be taking the children to my house on Tuesdays and Thursdays the nights that you would leave my children alone unattended until 9:30 PM . You could pick them up in Tinley park when your done with work and take them home I will not be driving them from my house back to Plainfield eight times a week . They will not be left with Luis. You have made other arrangements throughout the month to change my visitation of days on Tuesdays and Thursdays whenever you decided you were going to change your schedule last minute that no longer happens I will pick up my children and Tuesdays when they get off the bus in return back to Tinley Park where I will enjoy my time with them. And when you're ready to come pick them up I'll have them already to go if you do not come get them I will make sure I have them the school at the following morning right on time not a problem for me either .
